| Board Members: | Bill Flanery | R.D. Maynard |
| | John Bolliger | Willie Preacher |
| | Dick Buxton | Robert Rodriguez |
| | Doc DeTonancour | Fred Sica |
| | Christine Herres | Tami Sherwood |
| | Nicki Karst | Bruce Wendle |

DOE-ID: Jim Cooper
David Eaton
Nicole Hernandez
Dave Hutchinson
Bob Pence
Mark Shaw

CWI: Jim Floerke

Liaisons: Daryl Koch

Support Staff: Lisa Aldrich
Lori Isenberg

Objective(s) for the Committee Call

- Engineering Evaluation/Cost Analysis (EE/CA) for Decommissioning of CPP-601/640 Fuel Reprocessing Facilities

Willie Preacher chaired the call. Questions were asked about void space, inert material, east and west operating corridors, lead removal, asbestos removal, operational status of CPP-602 and CPP-606, PEW system isolation, evaporation ponds, and selenium.

DOE provided responses and then shared comments from Doug Weir and Bruce Wendle (that were submitted via e-mail).

There was recommendation discussion on whether or not it is a good idea to remove any of the lead. Additional recommendation discussion was held regarding the grouting of the columns and the consideration of grouting from the bottom rather than from the top.

The CAB will endorse Alternative 2. Willie will meet with Lisa on Friday to develop the recommendation. The recommendation will then be submitted to the CAB for review and approval. The recommendation needs to be submitted by February 15.

To review the details of this meeting, call 1-888-284-7564, playback code 215587.
