

Citizens Advisory Board Committee Minutes

Committee: End State

Date: March 1, 2006 – 10:00 a.m. (MT)

Participants

Board Members: Annemarie Goldstein, Committee Chair
Bill Flanery
David Kipping

DOE-ID: Shannon Brennan
Jim Cooper

Support Staff: Lisa Aldrich

Objective(s) for the Committee Call

- Draft letter (or recommendation) for public involvement on future decontamination and decommissioning.

Summary

The committee discussed and decided that they would submit this document as a recommendation. The committee agreed to include the following statements to address future decontamination and decommissioning:

- Radiation levels explained in layman terms with an example.
- Disposal path recognized and definitive before the decision including explanations why to use one over another.
- Disposal process and path for hazardous waste.
- Decision-making process.
- Set the public comment period to coincide such that the CAB has opportunity to respond and extend the period of time to comment due to the extent of the projects.

Jim Cooper suggested initiating the review at the beginning of the CAB planning cycle and concluding the review at the next CAB meeting. Committee commented and discussed the issue of not receiving documents that cannot be released to the public.

Actions

- Annemarie Goldstein will edit the document into a draft recommendation.
- Portage to develop and distribute minutes for the call.
