

Citizens Advisory Board Committee Minutes

Committee: Strategic Issues

Date: April 3, 2006 – 9:30 a.m. (MT)

Participants

Board Members: John Bolliger, Committee Co-Chair
Seth Beal
Lila Gold

DOE-ID: Shannon Brennan

Support Staff: Lisa Aldrich

Objective(s) for the Committee Call

- Public Involvement
- TAN-607
- “All means all” lawsuit (State vs. DOE)
- EE/CA for D&D of the Engineering Test Reactor
- Draft End State Vision
- Reprocessing (aqueous fuel cycle and new initiatives at Savannah River Site and INL)
- Mid-year progress on Lifecycle Baseline
- New member orientation (balance of site, nuclear energy, regulatory issues and Yucca Mountain technical discussion)

Public Involvement, TAN-607, Reprocessing (aqueous fuel cycle and new initiatives at Savannah River Site and INL), Draft End State Vision

These topics are pending new information, nothing to discuss at this time.

“All means all” (State vs. DOE)

CAB would like to hear an update from Kathleen Trever or DOE.

EE/CA for D&D of the Engineering Test Reactor

The document is on schedule and there may be a document by the meeting date. Shannon will know more within a week or so.

Mid-year Progress on Lifecycle Baseline

Post-poned for the July meeting.

New Member Orientation (balance of site, nuclear energy, regulatory issues and Yucca Mountain technical discussion)

Shannon suggested a 3-hour interactive presentation that would include FACA, new member selection, member appointment, and information on other CABs in conjunction with the history of this CAB. This would include an orientation and briefing of the INL Site. Shannon also asked the CAB if they would like to try this in a more comfortable setting. Lila asked for inclusion of individual roles and responsibilities. John thought this would be best discussed and reviewed by the Administrative Committee (now combined with the Executive committee). It was also suggested that a non-technical explanation from the chair be included in the orientation process.

Seth commented that he would be visiting Yucca Mountain this month with the ECA group and could perhaps give a brief about his tour there.

Actions

- Portage to develop and distribute minutes for the call.
